## Summary

As a technical, experience-driven professional, I offer a combination of knowledge and experience across software engineering, user experience, and information technology. Throughout my career, I have helped organizations enhance technical excellence by guiding the software development life cycle (SDLC) while leading requirements gathering and developing new features. Recognized as a creative problem solver, I am adept at delivering new products within multiple projects.

My technical skillset spans across: C++, PHP, C, Python, Java, MySQL, Oracle, JIRA, Confluence, GitHub, HTML5/CSS3, Bootstrap, jQuery, AngularJS, and more. Also skilled at fostering relationships with cross-functional team members, I ensure the successful execution of strategic project plans. In addition to my professional experiences, I've had a proven history in:

- Front-End Development
- Requirements Analysis
- User Interface (UI)
- Technical Troubleshooting
- Coding & Programming

As a software development, I've been recognized for tackling situations from different perspectives and providing innovative solutions to challenges. I aim to improve overall success while leaving a lasting impact on my organization and stakeholders.

## Experience

### Front End Associate

The Home Depot

Jun 2022 - Present (2 months +)

### Software Developer

crossML Pvt Ltd

Jan 2020 - Sep 2021 (1 year 9 months)

- Served as a key member of the web development team, constructing high-quality, responsive websites using Bootstrap, AngularJS, and JavaScript.
- Played an integral role in enhancing user experience (UX) by leveraging and implementing state of the art interfaces in compliance with best practices related to user interface development.
- Developed server-side applications using NodeJS and Java while converting design mockups into websites using HTML5/CSS3; utilizing jQuery and AJAX while implementing web pages.

Front-End Development | Wireframes | UI Development | Information Technology | Project Management  
| System Integration | Testing

Java | Spring | Spring Boot | JavaScript | TypeScript | AngularJS | Angular | React | HTML5 | CSS3 | SQL | RESTful Web Services

## ■ Frontend Developer

### Antier Solutions

May 2019 - Dec 2019 (8 months)

- Supported the software development life cycle (SDLC) within an Agile environment, leading the developing of scalable applications using AngularJS as the framework with TypeScript.
- Leveraged exceptional communication skills to partner with the business team, product owners, and stakeholders to guide requirements analysis and deliver state of the art digital experiences.
- Key role in optimizing user experience (UX) by coordinating with the design team to evaluate and discuss the technical feasibility of UX design research.
- Pioneered the creation and launching of new features based on business and technical requirements while deploying strong problem-solving skills to troubleshoot bugs.

Software Engineering | Application Development | Requirements Gathering | User Interface (UI) | Technical Troubleshooting | Coding | Programming

PHP | JavaScript | TypeScript | Angular 9 | HTML5 | CSS3 | Tomcat | Spring Boot

## Education

### University of Toronto

Full-Stack Web Development , Computer Science Boot Camp

Jan 2022 - Jul 2022

### Thapar Institute of Engineering & Technology

Master of Computer Applications - MCA, Computer Science

2017 - 2019

### Hans Raj Mahila Maha Vidyalaya, Jalandhar

Bachelor of Science - BS, Information Technology, Computer Science

2014 - 2017

## Licenses & Certifications

**Coursera Introduction to Cybersecurity Tools & Cyber Attacks - IBM**

**Python - INFOWIZ**

## Skills

Reporting • Database Development • Java • Jira • ES6 • GitHub • Express.js • MongoDB • Software Development • Wireframing
